

HOW'S YOUR COMMUNITY SAFETY-NET?

Did you know...?

1 in 6 Tennesseans lack access to affordable health care & 4 of 5 uninsured are from working families. *Insured & think this doesn't affect you? Oh, contraire...*

Did you know...?

When it comes to health care, we're all in this together. Uninsured and under-insured go without care, so illnesses worsen & cost more to treat in the long-run. Families are often forced into medical debt. As uninsured numbers rise, the Insured pay more for premiums & services.
