

Health care justice begins with YOU!

Join with the Tennessee Health Care Campaign today!

THCC is working on practical solutions for the short-term and long-term, and we need your help.
What can you do to improve and solve the problems associated with being uninsured? Plenty!

1 Get involved in your community.

Join THCC's Local Organizing Group (LOG) in your area. The LOG is made up of volunteers, like you, who are concerned about the state of health care and want to act for improvement. Key to providing health care for all is educating and inspiring citizens at the local level, and the LOG's work toward that end through local activities and by plugging into state and national events. Call 1-877-431-7083 for details.
